**Many of our home grown salad leaves are from the mustard family.*

**Celery is occasionally used in our salads of the day*

**Nuts are occasionally used in our salads of the day but not peanuts*

**Organic milk is used in some of our sandwich breads but not all. See bread allergen table.*

** Soy sauce is occasionally used in our salads of the day.*

*****Currently our decorative balsamic glaze contains sulphites - we are working to source a vinegar without sulphites - let us know if you would prefer to leave it off the plate!**

******Most of our menu items can be prepared without gluten, dairy, eggs, mustard, nuts, sesame, celery and sulphites. We can offer a gluten-free version of all items on the menu apart from our quiche and some of our desserts. Just ask when you order! Note that our kitchen does handle all of these allergens so traces may be present.**
